Dear Friends:

This Fall there have been so many changes and additions that we felt it necessary to issue a new catalog which we present herewith. As usual, there are no frills — no ecstatic descriptions, no mouth-watering colored illustrations. By using brief, terse descriptions, and cramming these few pages with thousands of rare and unusual items at "down-to-earth" prices, we are able to keep costs down, and save you money (an old-fashioned approach, we must admit). If you like to look at pictures (and we all do), may we suggest you resort to our competitors who specialize in selling color rather than bulbs.

We handle approximately ten million bulbs and plants each and every year! It is this volume of business that allows us in most instances to under-sell our competition. It is not a question of size, or quality! In fact, the writer spent a most amusing — if instructive — evening recently. Sitting down with a lap filled with the gaily illustrated catalogs of our competitors here and abroad, we started to read them thoroughly for the first time. *Imagine our consternation when we were unable to find in one of them the actual size of the bulbs offered!*

There are, for example, seven sizes or grades of Tulips, about six grades of Narcissi, five of Crocus, six of Hyacinths, and so on! We know not what size our competitors use, but since they do not brag about it, we doubt that they use TOP SIZE!

We state clearly what size — in actual metric measurements — we use! In the case of Tulips, we use only TOP SIZE — than which there is no larger! The same applies to Narcissi. In the case of Crocus and Hyacinths, good results can be obtained from several sizes, depending on their use — so we list several sizes — in centimeters! You know what you are buying, and you get what you buy!

Because of our large volume, and the fact that we maintain our own warehouse in The Netherlands, we are able to keep prices low, but in addition, we allow the following quantity discounts on early orders:

QUANTITY DISCOUNT	
APPLY ONLY ON ORDERS RECEIVED ON, OR BEFORE	If your order totals 25.00 — deduct 5%
SEPTEMBER 15	If your order totals 50.00 — deduct 10%
	If your order totals 100.00 — deduct 15%

Remember — our prices are all-inclusive. There are no "extras" or hidden costs — except on orders under \$10.00 — when we must charge 50c for postage and handling. On orders over \$10.00, we pay freight or postage to your door.

Once again, my sincere thanks to those whose continued patronage has made this catalog possible.

Cordially yours,

GROWERS EXCHANGE INC.

John J. Riordan, President

# WEST COAST BULBS

West Coast bulbs are preferred by many — and deservedly so — as our own domestic growers have produced through tireless hybridizing and selection some of the finest strains of Begonias, Gloxinias, Freesies, Anemones and Ranunculus in the world. West Coast bulbs are also generally conceded to be more disease-free than imported bulbs. The months shown in parentheses are the months during which delivery can be made of these fine bulbs, **but order early to avoid disappointment.**

## ACHIMENES (Basket Flower)

An excellent house plant or greenhouse subject. A relative of African Violets and Gloxinias. Culture much the same. **Mixed colors only.** (Dec.-Mar.)

**\$1.50 per Doz.; \$10.00 per 100**

## AGAPANTHUS (Love Flower)

Also known as "Lily of the Nile". A fine subject for tubs or patio planters in the North, or for the garden in the South. Large, husky divisions. (Jan.-May).

A. **UMBELLATUS.** Blue.

A. **UMBELLATUS ALBUS.** White form.

**75c Each; 3 for \$2.00; 6 for \$3.50**

## AMARYLLIS BELLADONNA

Pink flowers appearing before the leaves. An extremely easy-to-flower amaryllid. (Sept.-Dec.).

**50c Each; 4 for \$1.75; 8 for \$3.00**

## AMARYLLIS HYBRIDS

These California grown bulbs represent a superior strain characterized by their wide open flowers, and solid rich colors. Mixture only. (Dec.-Mar.).

**\$1.00 Each; 6 for \$5.00**

## AMARYLLIS HATHOR

Actually Brunsvigia Hathor — a truly beautiful summer flowering amaryllid, producing masses of pure white flowers in August. (July-Oct.)

**\$1.50 Each; 4 for \$5.00**

## ANEMONE - "TECOLOTE" HYBRIDS

California-grown "Tecolote" Hybrids are grown in one year from seed. These young healthy bulbs produce finer plants and many more flowers than the imported bulbs which are two years old. (Sept.-May).

**TOP SIZE: \$1.50 per Doz.; \$10.00 per 100**

**SECOND SIZE: 75c per Doz.; \$5.00 per 100**

## TUBEROUS BEGONIAS

We offer the strains produced by Worth Brown and Vetterle, by far the finest in the world. (Jan.-Mar.).

**RUFFLED DOUBLE (BALLERINA) TYPE.**

**ROSE FORM TYPE.**

**DOUBLE PICOTEE (TWO-TONE) TYPE.**

**DOUBLE CARNATION (FRILLED) TYPE.**

**HANGING BASKET (PENDULA) TYPE.**

**MULTIFLORA GIGANTEA (MINIATURE) TYPE.**

**NARCISSIFLORA (DAFFODIL) TYPE.**

Above types available in separate colors, or mixed.

Jumbo 2-inch tubers:

**59c Each; 2 for \$1.00; \$5.00 per Doz.**

## BRODIAEA

A fine subject for the garden or naturalizing on the West Coast, or gentle forcing in home or greenhouse in colder climates. (Sept.-Nov.).

**Mixed Colors: 5 for \$1.00; \$2.00 per Doz.**

## CALLAS

Ever popular subjects for growing in pots during the winter months, Callas are available in three striking colors. (Nov.-Mar.).

C. **ALBO MACULATA.** White, spotted leaf.

C. **ELLIOTTIANA.** Golden yellow Calla.

C. **REHMANNI SUPERBA.** Improved pink Calla.

**JUMBO SIZE BULBS — 2 1/2 inches up.**

**75c Each; 3 for \$2.00; \$6.50 per Doz.**

## CALOCHORTUS

Globe or Mariposa Tulips. These western cousins of the tulip are well suited for the border, or gentle forcing in pots. Mixed only. (Sept.-Nov.).

**4 for \$1.00; \$2.50 per Doz.**

## CHINESE SACRED LILIES

An easy Narcissus for growing in pebbles. (Oct.).

**4 for \$1.00; \$2.50 per Doz.**

## DAISIES - SHASTA TYPES

Large strong field-grown divisions. The following are all fine cut flower varieties. (Oct.-Dec.).

**MARCONI (Frilly Double) MAJESTIC (Duplex)**

**ESTHER REED (Full Double)**

**3 for \$1.00; \$3.50 per Doz.**

## FREESIAS - "TECOLOTE" HYBRIDS

A new strain characterized by flowers of immense size. Wide-open blooms that are delightfully fragrant. Plants of unusual strength and vigor. Tall, strong stems. (Aug.-Oct.).

**Mixed Colors: \$1.50 per Doz.; \$10.00 per 100**

## GLOXINIAS

Since West Coast bulbs need not be "cleaned" of surplus roots (as is the case with imported tubers), they reach you in much better condition, and earlier. (Nov.).

**COLORS:** White, red, violet, violet edged white, red edged white, and Tigrinia (Spotted and netted).

**Jumbo 2-in. Size: 2 for \$1.00; \$5.00 per Doz.**

## HAEMANTHUS KATHERINAE (Blood Lily)

Showiest of all the amaryllids. Huge globe-shaped, brilliant coral red umbels covered with hundreds of 6-petaled florets bearing long stamens tipped with vivid orange opening over a long period of time. (Feb.-May.).

**\$5.00 Each**

## OXALIS

Available in named varieties. (Aug.-Oct.).

**BOWIEI.** Large rose-pink. Shamrock foliage.

**BERMUDA BUTTERCUP.** Yellow. Shamrock foliage.

**HIRTA.** Rose-pink. Moss-like foliage.

**GRAND DUCHESS PINK.** Shamrock foliage.

**GRAND DUCHESS LAVENDER.** Shamrock foliage.

**GRAND DUCHESS WHITE.** Shamrock foliage.

**75c per Doz.; \$4.50 per 100**

## RANUNCULUS - "TECOLOTE" HYBRIDS

This strain is the result of 30 years of careful seed selection. The colors of the huge blooms are bright and clear. Far superior to imported bulbs. (Sept.-May.).

**COLORS:** Yellow, Pink, Red, Rose, Orange, White, Mixed.

**JUMBO SIZE: 4 for \$1.00; \$2.50 per Doz.**

## SPARAXIS - "TECOLOTE" HYBRIDS

Brilliant large-flowering strain, up to 3 inches in diameter. Mixed only, but containing many shades of Scarlet, Salmon, Yellow, White, etc. (Aug.-Oct.).

**TOP SIZE: \$1.50 per Dozen; \$10.00 per 100**

## VELTHEMIA VIRIDIFOLIA

A fine pot plant bearing 40 to 60 reddish tubular flowers 1 1/2-in. long which hang closely from the tip of the 1 1/2-ft. stem. The leaves are shiny, and have wavy edges. (Aug.-Oct.).

**\$2.50 Each**

## WATSONIAS

Greatly resembling Gladioli, these delightful bulbs bloom from July to September. We offer the best of the newer West Coast introductions and crosses. Mixture only, but contained are shades of fuschia red, white, pink, lavender, and lilac. (Sept.-Nov.).

**TOP SIZE: \$1.50 per Doz.; \$10.00 per 100**

# We Proudly Present — Jan De Graaff's World Famous Lilies

By special arrangement with Mr. de Graaff we are pleased to offer his entire selection of outstanding Lilies. For varieties, or sizes not listed, write for complete list (or better, send for color catalog described on the bottom of this page).

Unless otherwise indicated, all bulbs are 6 to 7 inches — an excellent blooming size. Some varieties, however, simply do not make large bulbs. In such instances, prices are for top size.

# IMPORTED HOLLAND TULIP BULBS

6 to 24 of a variety at the Dozen price; 25 or more at the 50 price.

All Bulbs are Top Size, 12 centimeters and up — the largest size recognized by the Dutch Bulb Growers Association.

EXPLANATION OF SYMBOLS: The letter (E) means variety is very early flowering; (M) stands for medium flowering, about a week after the early (E) varieties; (L) stands for late flowering — about 2 weeks later than early varieties. Numbers following letters indicate approximate height in inches.

# IMPORTED JAPANESE TULIP BULBS

Each year, since Japanese tulips have been available in quantities sufficient for export, we have exported hundreds of thousands — several million in all. Our findings have been uniformly good. Blooms are equal in size to tulip bulbs, grown in this country or Holland. Sizes are, of course, the same, but the skins of the Japanese tulip varieties are far superior to the skins of tulips grown elsewhere. This makes them especially suited for re-sale across the counter. 250 of a variety at the 1000 rate.

# CHOICE CYMBIDIUM PLANTS

In recent years we have handled thousands of orchids for various firms and estates interested in reducing their collections, but never, WE REPEAT, NEVER have we handled a lot which has compared in quality with the present acquisition we have made.

These plants range all the way from 4 inch pots to 10 inch tubs, but for shipping we generally confine ourselves to 5, 6, and 7 inch sizes, as these ship the best. Actual size will depend on the variety, but all are definitely **guaranteed to be blooming size, undivided plants** (all of which are capable of from 2 to 5 divisions).

These plants came originally from Holland, Belgium, England, and Australia. Some will be labeled as to name, but many are hybrids carried by number only. The parentage of all these plants is, however, guaranteed to be the best, and represented are all the colors to be obtained by the world's leading growers in their continuous search for perfection of form and color.

Many of these plants are currently being offered by other firms at prices of \$25.00, \$50.00, \$100.00, \$250.00 and \$500.00 each! You can understand, therefore, our enthusiasm in being able to offer these at the same low price as we have offered all of our orchids in the past.

If you purchased some of the Cymbidiums from our last sale during the summer, fall and winter, we would explain that this previous collection came from a grower on Long Island, and there is little or no chance of duplication when you purchase from this new collection, which comes from California. It is generally conceded, also, that the California hybrids are the best on the market today!

**WHILE THEY LAST, WE OFFER THESE FINE PLANTS AT**  
**\$5.00 each; 6 for \$25.00; 15 for \$50.00; 40 for \$100.00**

## CYMBIDIUM BACK BULBS

Undoubtedly the cheapest way to get a start, Cymbidium back bulbs are easy to grow if you follow the simple instructions we include with your order.

**\$1.00 each; 6 for \$5.00; 15 for \$10.00**

## HAWAIIAN ORCHID PLANTS

From 7 of the Islands leading growers we have assembled some very fine plants in the following varieties (mostly 5 inch pot size):

BRASSIA MACULATA, BRASSIA VERRUCOSA, DENDROBIUMS, EPIDENDRUM HYBRIDS, CATTLEYA HYBRIDS (mounted on logs), PLATYCLINNIS CARIBAEANUM, LYCASTE CANDIDA, ONCILIUM ALTISSIMUM, AERIDES ODORATUM, and VANDA HYBRIDS.

We offer all the above, delivered to your door by air prepaid:

**\$5.00 each; 6 for \$25.00; 15 for \$55.00**

(When weather permits, we reserve the right to ship by surface mail from Farmington.)

### Hawaiian Tree Ferns (Cibotium Chamissoi)

While Hawaiian Ti plants are relatively common in the United States, Hawaiian Tree Ferns seem to have been overlooked, which is to be regretted, as they are delicately artistic, are of easy culture and are splendid subjects for trays or dish gardens, as well as for arrangements in the Oriental or modern decor. Logs are 4 to 8 inches long, 2 1/2 to 3 1/2 inches in diameter.

**\$2.00 each, 3 for \$5.00**

### AMERICA'S MOST EXOTIC FLOWER STRAP LEAF VANDA HYBRIDS

Mature, blooming size plants, also ideally suited for culture in the home, as their temperature requirements closely parallel those in the average home, both day and night. These are fine varieties flown in to us from Hawaii. Quantity limited. Out of pots.

**\$5.00 ea.; 6 for \$25.00; 15 for \$55.00 (all postpaid)**

### FIR BARK FOR RE-POTTING ORCHIDS

Medium ground for mature plants.

Small Bag — 2 1/2 qt. size **75c per bag**  
Large Bag — 2 cubic feet **\$5.95 per bag**  
(Large bag weighs 50 pounds, and is sent via motor freight collect.)

### PLASTIC POTS FOR RE-POTTING

Plastic pots are clean and durable. They cut down on labor required for watering and handling, and, of course, are attractive in the home.

	Per 6	Per 12	Per 25
5-inch Pot	<b>\$1.25</b>	<b>\$2.00</b>	<b>\$3.75</b>
6-inch Pot	<b>1.75</b>	<b>3.00</b>	<b>5.50</b>
8-inch Pot	<b>4.50</b>	<b>8.00</b>	<b>15.00</b>

### TERRESTRIAL ORCHIDS

**SPATHOGLOTTIS.** A truly rugged species from Hawaii. We've seen them bloom in shipping containers without benefit of soil! Can be grown indoors or outdoors. Produces numerous orchid lavender flowers. Seldom offered — especially at this low price.

**\$1.00 each; 6 for \$5.00; 15 for \$10.00**

**EPIDENDRUM.** These dainty little orchids are also from Hawaii. Shades vary from yellow, through red, to lavender. They do not make very large plants, but even minute ones bloom readily, and almost continuously.

**\$1.00 each; 6 for \$5.00; 15 for \$10.00**

**PHAIUS GRANDIFOLIUS.** The popular "Nun's Orchid". Reddish-brown blooms on tall stems.

**\$2.00 each; 3 for \$5.00**

**BLETILLA HYACINTHIANA (Lavender), and BLETILLA ALBA (White).** Dainty miniature cattleya-like blooms. Perhaps the easiest of all orchids to grow.

**3 for \$1.00; 12 for \$3.00**

**CALANTHE DISCOLOR (Claret red), CALANTHE SIEBOLDII (Deep yellow), and CALANTHE STRIATA (Buttercup yellow).** Dainty, free-flowering Japanese varieties.

**3 for \$2.00; 12 for \$6.00**

### ORCHIDS MAKE EASY HOUSE PLANTS

... as is proven by the tens of thousands now growing them. If you have any qualms, send 25c to the UNIVERSITY OF CALIFORNIA, COLLEGE OF AGRICULTURE EXPERIMENTAL STATION, BERKELEY, CALIFORNIA, for their wonderfully illustrated 66-page booklet on "ORCHIDS" by H. M. Butterfield. It is the most concise, yet most thorough book on orchids we have ever seen. It covers every species. Or you may add 25c to your order and we will send it from here.
